Frontend Developer

I have workspace experience as a cashier. I can work together with a team.
I consider myself fluent in English, which is proved by my C1 from 2018.

Technical Skills

- **Languages I know:** *HTML, Javascript, CSS, C++, C,*
  less fluent in: PHP, SQL, Shell and some less relevant ones
- *Object-oriented programming, functional programming*
- *Tensorflow Keras neural networks and machine learning basics*
- *React basics, keen to learn other technologies* 😊
- *Linux running on my personal laptop (CLI) and managing a Minecraft server on it.* 😊

Professional Experience

- *None in software development.*
- *I have a webpage I use for fun, though ELTE only allows PHP backend, so React would be a bit fiddly there.* https://csizmadiat.web.elte.hu/

Education & Certifications

Óbudai Árpád Gimnázium – Budapest, Hungary
Érettségi 2019
  Maths advanced 80%
  English 98%
  Physics 72%

Currently studying:
ELTE IK – Budapest, Hungary
Computer Science BSc
Fourth semester

Hobbies

- *Learning about history*
- *Running and gym*
- *Watching news in foreign languages (French, German)*
